Schooners May Be Lost

St. John, Newfoundland, November 22nd.—The steamer Stord, coal laden, from Sidney, C. B., for St. John with a crew of fourteen men is now eleven days out while the passage usually occupies only forty-eight hours. It is feared that the steamer foundered in the gale on Saturday and Sunday.

SEMETVO MEMORIAL

PRESENTED TO THE CZAR

Calls for a Radical change in Russia's Government. The War in the Far East

St. Petersburg, November 23.—The final article of the Semetvo's memorial as it will be presented to the Emperor is as follows: "In view of the importance and difficulty of the international and external situation, throughout which Russia is passing this informal conference expresses the hope that the sovereign power will summon freely elected representatives of the nation in order with their co-operation, to obtain of the fatherland an evolution of the state in the direction of establishing a new basis of law for mutual co-operation between the imperial authorities and the people. Landigaw Manchuria, by courier to Mukden, November 22.—The Japanese lost five hundred men in the attack of November 17 and 18, and were evidently disheartened when they renewed the attack on November 19.—The Japanese sent out several battalions from Double Dumped Hill, but their movements lacked decision. The Russians opened fire from Poutloff Hill, and a neighboring eminence. Several shells burst in the midst of the advancing Japanese columns, and quickly checked them. The Japanese tried a turning operation at Chantindza, but there they also were disposed. There was a slight encounter on November 20. Russian scouts have penetrated a short distance into the Japanese lines, but without much result. During the last two days the Chinese have been moving in large numbers from the east to the northward, taking with them their wives, children and household goods in order to save them from the Japanese. They evinced more confidence in the Russians than in the Japanese. The Chinese complain that the whole country between the Russian and Japanese lines is laid waste; not a single dwelling is standing; the earth dwellings of the soldiers are comfortable.

General Linvitch, commander of the first army, rode around the Russian positions to-day.

Vigo, Spain, November 22.—The Russian auxiliary cruiser Kuban, which arrived here on November 19 sailed to-day southward. It is reported that her condenser is jammed.

London, November 23.—Japan is buying Welsh coal at Cardiff. One purchase of ten thousand tons is recorded, and other orders are reported to have been placed. The steamer King Robert, 3,500 tons, has been chartered at Cardiff for a Japanese account.

Berlin, November 23.—The Mukden correspondent of the local Anzeiger sends the following: "Reports of the death of General Kutoki persist in spite of denials, and are revived by Chinese coming from the Japanese camps.

Chinese who have just arrived at Schrenkoff from Port Arthur reported that the Russians have laid out three lines of defences."

WHAT THEY THINK OF THE PEOPLE

The explanations which the Winnipeg Telegram, the Toronto Mail and other party papers give of the opposition defeat are scarcely sufficient. Their allegations of wholesale bribery and tampering with election machinery might be listened to if the majorities were not so large. But where the majority and majorities are so overwhelming as in this case an easier and more credible explanation is that the people were satisfied with the administration of the Liberal Government and approved of their railway policy. The campaign of the opposition was based on the broad general ground that the people are fools, just as now their explanations of defeat are based on the supposition that the people are rascals and have sold their votes.

Here is a sample of the scare headings carried by the Winnipeg Telegram immediately before the election.

"Do you want the road built to Edmonton in four years or in eight. Under the new Grand Trunk Pacific agreement the company can take eight years to build or buy to Edmonton. (Hayes insisted upon this. Why did he do so if he intends to build promptly? The Conservatives stand pledged to build to Edmonton in less than four years."

In this heading the statement is made and insisted upon that the Grand Trunk Pacific was allowed eight years to build to Edmonton. The fact is that the amended agreement binds the company under forfeit of five million dollars to build from Winnipeg to the Pacific coast by the 1st of December 1911, or seven and not eight years from the 1st of December next. Edmonton is only half way from Winnipeg to the coast. If the company are to save their five million dollars they will have to get to Edmonton in much less than four years.

The assertion that the Conservative party was pledged to build to Edmonton in four years is as wide of the mark as the assertion that the agreement with the Grand Trunk Pacific allowed that company eight years. A motion was made in Parliament by a Conservative member to amend the Grand Trunk Pacific agreement so as to compel that company to do in four years what it was already bound by a five million dollar forfeit to do in less. But that motion had no bearing whatever on the action to be taken by the Conservative party should it have come to power.

It is fortunate indeed that the country is safe for another four or five years from the domination of men who hold the public information and intelligence so lightly as to make such statements and arguments.

WHAT MAKES THE DIFFERENCE

The Winnipeg Telegram announces under large head lines the opening of the new C. P. R. direct service between Winnipeg and St. Paul over the newly opened Soo line connection. The service began on Monday, November 21. The Telegram is quite jubilant over the promised excellence of the service, which will have a night run both ways. Trains leave both ends at 5 p.m. and arrive at 8 a.m. The Telegram it may be mentioned, is one of

the papers which objected most strongly to the Grand Trunk Pacific bargain, because the Grand Trunk Company carries business to Portland, Me. But it sees cause for gratification at the inauguration of a service over the C. P. R. the very excellence of which is intended to make Winnipeg a business suburb of St. Paul, and to divert western trade from Eastern Canadian cities to St. Paul.

ELM TREES AT EDMONTON

Kelly & Beals have on exhibition at their shop on Queen's avenue the branch of an elm which was growing in the garden of Frank Oliver, M.P. of Edmonton. The branch is about ten feet in length, and is two inches diameter at the thickest end. The tree upon which it grew is about twenty-five feet in height and is a very handsome tree. The variety is gray elm, a sub-variety of rock elm which grows on rich dry ground in Eastern Canada. The tree is entirely healthy and hardy. It is about twelve years old, and has grown as rapidly as Manitoba maples planted near it. It is fair to say however that two other elms planted close by have not thriven as well. This may have been because they were crowded. These two are not half as large as the one from which the branch was cut, but are apparently perfectly hardy. No means has ever been taken to protect these trees at any season of the year. They grew at the brow of the hill overlooking the river valley, and facing the morning sun, generally considered to be the worst position for trees. The trees came originally from the central experimental farm at Ottawa.

IS NOT A CANDIDATE

Editor Bulletin:—

I wish to contradict the report that is current throughout the Edmonton constituency at present to the effect that I have decided to stand as a candidate for the Territorial Assembly. It is true I have been approached by a number of my German compatriots to be a candidate for the Assembly and that I have received other promises of support from points along the Athabasca Landing trail. I wish to say that much as I appreciate the honor, I already have trouble enough without looking for any more in the political field. I intend devoting all my time to the development of the oil fields of the North, which development will be of great importance to Edmonton.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting 8 and 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situate, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situate, receive authority for some one to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, reside upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent, countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same township or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3, or 4, must or substitute 20 head of stock, with buildings for their accommodation, cultivate 30 acres of his homestead, and have besides 80 acres substantiated.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homesteads to entitle them to patent on or before the 2nd June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry cancelled, and the land may be again thrown open for entry.

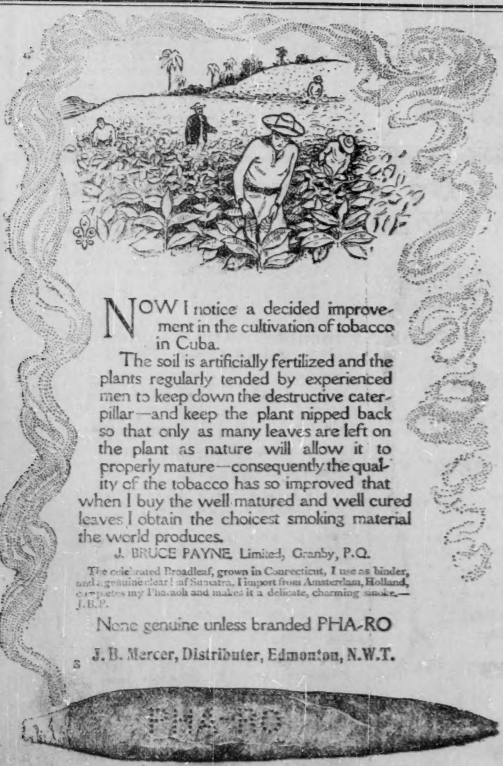

Application for patent should be made at the end of three years, before the local agent, sub-agent, or Homestead Inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention to do so.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at any Dominion Lands Office, in Manitoba or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit them. Full information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the Railway Belt in British Columbia, may be obtained upon application to the Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,

Deputy Minister of the Interior.

N.B.—In addition to Free Grant Lands to which the regulations above stated refer, thousands of acres of most desirable lands are available for lease or purchase from railroad and other corporations and private firms in Western Canada.

NOW I notice a decided improvement in the cultivation of tobacco in Cuba.

The soil is artificially fertilized and the plants regularly tended by experienced men to keep down the destructive caterpillar—and keep the plant nipped back so that only as many leaves are left on the plant as nature will allow it to properly mature—consequently the quality of the tobacco has so improved that when I buy the well matured and well cured leaves I obtain the choicest smoking material the world produces.

FOR THE ASSEMBLY
ELECTION

In response to the call for a convention to elect a candidate for Member of the Legislative Assembly for the Edmonton district issued by the meeting of Tuesday the 15th, meetings were held last night in the several polling divisions of the city to select delegates to the convention. The feeling at the several meetings seemed to be strongly in favor of C. W. Cross as the candidate and some of the delegates have been instructed to support him in the convention. It is understood that should Mr. Cross be the choice of the convention he will stand as a candidate.

WATER WORKS

During 1904, 6,435 feet of sewers have been laid in the city of Edmonton. In the same time 8,735 feet of water mains were laid. Besides this and in this department, there were constructed 15 valve chambers, 20 manholes, and 15 catch basins.

During this season there were slightly over 61-2 miles of straight sidewalks laid within the city. Besides this, 52 lane crossings at a length of 1,040 feet, and 61 street crossings, at a length of 4,880 feet were constructed. This makes the total length of the sidewalks built this year over 71-2 miles.

SCHOOL BOARDS

The nomination and election of school trustees in the city takes place at the same time and place as those for Mayor and Alderman.

The public school trustees are: Alex Taylor, A. E. Cushing, K. A. McLeod, Robert Lee, H. O. Taylor. The two latter are the retiring trustees this year.

The separate school trustees are: J. Bilodeau, A. E. Voyer, N. D. Beck, J. W. Pommerleau, and H. Morel, the three latter are the retiring trustees.

MADE BY
HAND

I HAVE each Pharaoh cigar rolled by hand! I do this in order that the leaves that go into the filler may be properly placed, with the top towards the burning end of the cigar.

It also enables the packing of the filler to be properly done—you will find my Pharaoh will smoke easily and evenly from end to end!

I see that the materials are of the highest grade as well.

Cuban tobacco I myself select from the Manicureagua district, in the Province of Santa Clara, is the filler—the most expensive Connecticut Broadleaf is the binder, and a clear, beautiful Sumatra I import from Holland is the wrapper.

My Pharaoh makes a mighty good smoke for the money.

H.B.K. BRAND

BIG SHIRT

Made big enough for a big man to work in with comfort. Has more material in it than any other brand of shirt in Canada. Made on the H.B.K. scale it requires 39 1/2 to 42 yards per dozen, whereas common shirts have only 32 to 33 yards.

That's the reason why the H.B.K. "Big" Shirt never chafes the armpits, is never tight at the neck or wristbands, is always loose, full and comfortable and wears well.

Each shirt bears a tiny book that tells the whole history of the "Big" Shirt, and also contains a notarial declaration that the H.B.K. "Big" Shirt contains 39 1/2 to 42 yards of material per dozen.

Sold at all dealers but only with this brand:—

EVIDENTLY FEELS SORE

The following appears in the Star correspondence of the Strathcona Chronicle. It is interesting as showing the point of view of the writer and publisher, and possibly of some of their readers:

"The elections are over, and we, Conservatives, are badly defeated. 'Hog' springs eternal in the human breast," and we arise as determined as ever to face the foe. 'Star' stood true to the Conservative flag Mr. Oliver securing only about a dozen votes. Star deserves praise for its loyalty. The Liberal 'organizers' found their match here, and their oily—rather slimy—tongues were of no avail. We hear that Mr. Oliver sent a telegram to a Liberal at Star saying, 'Surely God has forsaken Star.' Mr. Frank will find that there are men quite capable of thinking and acting for themselves and don't 'follow the multitude to do evil,' and who won't forsake the flag to follow any Liberal, however brilliant he may be. Mr. Oliver's majority is great, still, taking into consideration the 'quality' of his votes—rather voters,—one doesn't envy him. Ignorance was so evident amongst Frank's voters, that he himself cannot appreciate being upheld by such a rabble."

SEASON FOR DEER

Some misapprehension seems to exist regarding the open season for shooting deer. In this district the season opened on the 1st of November and will close on December 15th. Three males over one year of each species can be killed by each individual hunter. All females are prohibited from being killed and all males under one year of age. Non-residents can procure a license on payment of the fees.

THE MARKETS

Butter—From 20 to 25 cents is paid for butter. There is a good demand for choice print butter, at 25 cents a pound.

Eggs—Eggs are scarce at 25 cents a dozen. There is a large demand for strictly fresh eggs.

Potatoes—From 25 to 30 cents a bushel is paid for potatoes. The large demand is kept fairly well supplied.

Hogs—Hogs took a drop in price yesterday, and to-day the highest price being paid is 11-2 cents per pound.

Beef—Cattle are bought almost altogether by the head and not by the pound.

Poultry—Large quantities of fowl have been offering lately. The price is: chicken, 8 cents; ducks, 8 cents; geese, 10 cents; and turkeys, 11 cents per weight.

Hay—Hay ranges from five to eight dollars a ton. Large quantities are offering.

Wheat—Wheat deliveries are reported to be very heavy at all points in the district. The sample is almost uniformly of a high grade quality. The price ranges from 85 cents down.

Barley—The demand for Barley is slight, with considerable quantities offering. Feed barley brings 24 cents a bushel. Malting and milling barley from 26 to 40 cents.

Oats—Oat deliveries are very heavy, with the price unchanged. Feed oats, 20 to 21 cents, and milling oats 23 to 24 cents a bushel. The sample is uniformly good.

Winnipeg Grain Markets

Commercial, November 19th:

WHEAT—Manitoba wheat has been mostly weak and easily declined in price. Cash demand has been moderate as a rule, although at times it has been more urgent according as shippers might require wheat for immediate loading. In cash trade it is noticeable that 1 northern has held up in price much better than the other grades, and the lower grades of milling wheat have lost the most. At the close of business to-day value of 1 northern is 97 1-2c, 2 northern, 92 1-2c, 3 northern, 87c, No. 4 wheat extra, 77 1-4c, No. 4 wheat, 76c, No. 5 wheat, 66c; feed wheat, 59 1-4c, and No. 2 feed 50c spot or past Winnipeg, and on the option market November closed at Wednesday (to-day being a holiday on the option market) 95 1-2c, December 94 5-8c and May 93 5-8c, all prices being for in store Fort William and Port Arthur.

OATS—No. 2 white, 31c; No. 3, 29 to 30c; feed grades, 28c per bushel, in carlots on track, Winnipeg.

BARLEY—No. 3 barley, 37c per bus.; No. 4, 35c; feed grade, 32c on track, Winnipeg.

SUMMING UP

THE principal features of my Pharaoh Cigar are as follows:

- 1.—Cuban filler—I select from the best grown in the Manicouaga district in the Province of Santa Clara.
- 2.—Connecticut Broadleaf binder—the most expensive grown.
- 3.—Clear leaf Sumatra wrapper, I import direct from Holland.
- 4.—I do not work any tobacco until I age it at least three years—then the taste and fragrance are fully developed.
- 5.—Each cigar is rolled by hand, under my personal supervision—I secure in Pharaoh a steady, even combustion and a cool, sweet smoke.
